

mission outreach in churches

**. . . because YOU support
Shared Ministry Apportionments**

Thanks to your support, more than 26 local churches receive mission grants to support outreach in their respective communities through the Parish Development Commission.

These grants support feeding programs, after school programs, computer labs, tutorial assistance, free legal and social service assistance, immigration, language skills, and child care needs.

The grants are distributed annually across all districts of our conference in an application funding process. If a church is interested in applying for a mission grant, they need to contact the chairperson of their district parish development for an application, and to learn of the deadlines for submission and what other information is needed to process each request. All district-approved requests must also be okayed by the conference's parish development commission. And that approval is done at the November meeting of the Conference Parish Development Commission. If approved, the grants are distributed quarterly from the Conference Finance Office.

The Church of St. Paul and St. Andrew in Manhattan has used mission grants to fund afterschool classes and feeding programs.
