Course Description: Each of us has a personal and unique learning style. It may be similar to that of others, but if we are able to use a learning style tailored to the way our brain recognizes, stores and processes information, learning becomes easy and fun. - For instance, some people learn by interaction with a small group, some learn by reading instructions and some learn by practical experience. “From Your Heart to Theirs” will incorporate various learning styles to go beyond basic sermon preparation to help students create different types of sermons, how to find a story, use the hymnal, and move communication beyond a written sermon. This course is open to all laity and is designed with all these learning styles in mind. As an advanced course, it will serve as a review for some and supply new information for others.

There is no registration fee. The book for the participants is called “*From Your Heart to Theirs: Delivering an Effective Sermon*” by Tony Franks and David Carroll (ISBN 9780881775365). It can be found at Cokesbury, Upperroom Books, and Amazon and **must be purchased separately.**
